

**For the first time, AAPP will provide hands-on,
Practical Polygraph Training on Directed Lies!**

The Directed Lie test has been an option for many examiners for many years; however, some examiners may not have received formal instruction with Directed Lies. They, therefore, have cautiously avoided DLCs.

This training is for you!

Further, those who have received instruction may not have used DLCs immediately after graduating. We know polygraph has “perishable skills.” So, if trained, but you don’t quite feel up to date administering a DLC exam...

This training is for you!

Or maybe you’ve been using DLCs for a while, but you’re not sure your exams could survive a challenge.

This training is for you!

And finally, perhaps you’ve been running DLCs for many years, and just want to see if you’ve been missing anything (or perhaps doing something inconsistent with best practices).

This training is for you!

AAPP is excited to present this course administered by two of the US Government’s most knowledgeable examiners. These examiners have over 60 years (actual number is?) of combined experience running DLCs.

This DLC “Boot Camp” will cover 2-1/2 days (20 hours!) at the Cherokee Seminar. During that time, you will learn:

- The History of Directed Lies
- What makes DLCs “work”
- The difference between Probable Lies and Directed Lies
- Pitfalls to avoid when selecting DLCs
- The correct point to administer the Acquaintance Test
- How to properly pretest DLCs
- How to resolve Inconclusive/No Opinion DLC exams
- The importance of Global Analysis during TDA

- Resolving “bad breathing” during a DLST
- Some little-known rules that should be followed when using the DLST

This 20 hour course will also include practical, hands-on experience:

- Conditioning your examinee for a DLC test
- Selecting proper DLCs
- Pretesting DLCs
- Administering the DLST with instant feedback from instructors

Your registration for the AAPP Cherokee Seminar covers the cost of this 20 hour DLC experience! It will be limited to ONLY 18 students, so if you're interested, contact Dale Austin at AustinPolygraphTraining@gmail.com ASAP. The first 18 to hit Mr. Austin's inbox will be registered for the training.

The course will be presented by:

Chief Warrant Officer Robert Lewis, MS

MI experience

DoDPI experience

Mr. Lewis “was there” when the Dept. of Defense Polygraph Institute created the Test for Espionage and Sabotage (TES), the forefather of today's widely used Directed Lie Screening Test (DLST). He has administered DLC exams, quality controlled DLCs, and trained others in the use of DLCs since 1776?

Dale Austin, MBE

Mr. Austin has taught world-wide and is passionate about Directed Lies. He is a frequent instructor at APA, AAPP, and state polygraph associations.

His polygraph training began in 1980 at Chicago's Keeler Polygraph Institute. He was his police department's first polygraph examiner (1980-1987) and has administered exams for defense attorneys (1987-2000) and multiple Federal agencies (2000-2019). He was an instructor at DoDPI, the US Government's center for polygraph training and research, from 2005-2012. He retired from government service in August 2019 and now runs Austin Polygraph Training.
