

The New Jersey Polygraph Association is the official, statewide organization of certified polygraph examiners in New Jersey. We are comprised of examiners in private practice, police agencies, and various government entities. All of our members use only validated test formats and follow APA published best practices.

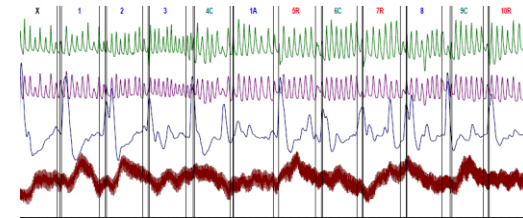

NJPA is a national leader in providing premier polygraph training at our annual seminars, which are offered at minimal cost to all examiners. Past speakers have included the leading names in polygraph research in the world including Dr. John Kircher, Dr. David Raskin, Don Krapohl and Dr. Charles Honts.

NJPA has been recognized as the premier state polygraph association in the country. Members embrace and support scientific research to improve and advance polygraph testing.

## ***New Jersey Polygraph Association***

**2025**

### **TRAINING SEMINAR**

### **ADVANCED EXAMINER COURSE**

**October 13, 14, and 15th**

**The Tropicana Hotel and  
Casino**

**Atlantic City, NJ**

## 2025 Speakers:

### Raymond Nelson

Raymond Nelson is one of the premier polygraph researchers in the world. He helped develop the Empirical Scoring System which allows polygraph examiners from different training backgrounds to easily evaluate charts accurately and reliably, greatly reducing examiner disagreement. NJPA adopted ESS in 2010 as its official test data analysis method and has been using it ever since.

Mr. Nelson will be lecturing on topics including:

- Updated ESS scoring rules
- Latest Research

Mr. Nelson has been an Honorary Member of NJPA since 2011.

### Milton “Skip” Webb

Skip Webb is a former Supervisory Special Agent for Polygraph for the US Army Criminal Investigation Command for 41 years. He studied Advance Forensics, psychophysiology at the University of Virginia. and has been a representative for Limestone polygraphs.
